

GEO. LANCE & SON'S

Air and Watertight

CESS-PANS.

(Patented in Victoria under the Patents' Act, 1890, and New South Wales)

The simplest, most effective, and most durable of any Pan or cover yet invented.

The Cover is constructed of wood and iron, is perfectly flat, without any rim to be knocked out of shape, and cannot be broken or injured in ordinary use.

There is but one fastening, which is secured in one motion (see Woodcut); it will not work itself loose no matter how roughly used.

Pronounced by DR. GRESSWELL to be the simplest and most effective he has ever seen.

ADOPTED BY THE TOWN COUNCIL OF WARRNAMBOOL.

TESTIMONIALS.

Dear Sirs,

I have inspected your Patent Closet Pan, and consider it the best and most reliable of any kind that I have hitherto seen, and can testify to their worth. From a sanitary point of view, I think in a thickly populated locality they should prove a blessing to the community.

472 Chancery Lane,

May 12th, 1891.

Yours truly,

ARTHUR H. CUTLER, Architect,

472 Chancery Lane.

Messrs. G. LANCE & SON,
Warrnambool.

P.S.—You may use this as you may think fit.—A.H.C.
